

RABI PAUL

Kolkata, West Bengal, India | hello.rabi.paul.tech@gmail.com | github.com/tech-rabi-7 | linkedin.com/in/rabi-paul-07-

SUMMARY

B.Tech Computer Science & Engineering student graduating in 2027 with hands-on software development and internship experience. Strong foundation in data structures, algorithms, object-oriented programming, operating systems, DBMS, relational databases, and complexity analysis. Comfortable with Java, Python, C/C++, SQL, JavaScript, and modern web development; interested in building reliable, scalable, multi-tier software and solving ambiguous problems with efficient, testable solutions.

TECHNICAL SKILLS

Languages: Java, Python, C, C++, JavaScript, SQL

CS Fundamentals: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Complexity Analysis, Computer Architecture, Compiler Design, Automata

Software / Web: Next.js, TypeScript, HTML, CSS, Tailwind CSS, REST API fundamentals

Databases / Tools: MySQL, PostgreSQL, Git, GitHub, VS Code, Jupyter, DBeaver, pgAdmin

EXPERIENCE

Software Development Intern - Simpsoft Solutions

2026 - Present

- Worked in a professional software development environment, translating requirements into implementation tasks and collaborating with team members on assigned work.
- Practiced debugging, code quality, version-control workflow, and structured problem solving while working on practical software tasks.

Technical Internships / Programs - EduSkills Academy; IBM SkillsBuild / AICTE

- Completed structured technical programs and hands-on modules covering software and technology concepts, assignments, and practical learning activities.

SELECTED PROJECTS

Scalable Product Catalog & Search Service

IN PROGRESS

- Building a multi-tier REST service with Python/FastAPI and PostgreSQL for product catalog management, filtering, pagination, and indexed queries.
- Adding Redis caching, database indexing, validation, and request-level performance measurement to practice scalable storage, index, and query design.

Fault-Tolerant Distributed Task Queue

IN PROGRESS

- Building a worker-based task processing system with Java/Spring Boot, Redis, PostgreSQL, and Docker, with asynchronous jobs, retries, status tracking, and idempotent processing.
- Designing failure handling and observability around queued work to practice distributed-system fundamentals, reliability, and multi-tier architecture.

Developer Portfolio - Next.js / TypeScript / Tailwind CSS

- Built a responsive portfolio application with component-based UI, project sections, contact information, and modern front-end tooling.

EDUCATION

Dr. Sudhir Chandra Sur Institute of Technology & Sports Complex (SurTech), Kolkata

2023 - 2027

B.Tech in Computer Science & Engineering | CGPA: 7.00/10

Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, Computer Architecture, Compiler Design, Automata, Object-Oriented Programming

Chittaranjan College / Chittaranjan Colony Hindu Vidyapith

Higher Secondary - Pure Science | 73.2%

ADDITIONAL

- Languages: English, Bengali, Hindi.
- Consistent DSA practice through structured coding challenges and algorithm implementation.
